## There is a Difference

Between fresh canned goods and old stock

Only the newest is best—having that delicate natural flavor of the fruit or vegetables.

Knowing this, we buy only from factories which can their goods immediately after they are picked or grown—factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock—constant renewal being our policy. The next time you use our canned goods note the fresh, natural taste—the character of them all.

The cotton was hauled to a railroad station eight miles from the farm, loaded on the cars and shipped to Bryan for compressing, and after being compressed was again loaded on the cars and shipped to Galveston, reaching there Thursday morning at 8 o'clock. That was certainly moving cotton in a hurry.
